

Research Team : PRFU :

Legal Framework to Protect the Consumer in the Legal
Contracting Under the Algerian and Comparative Code

Organizes:

The National Conference on: "Artificial Intelligence
Between the Technical Development and the Legal
Challenge "

Conference Date : May, 27th, 2024.

Conference Importance

Today's world is rapidly moving towards
digitizing all areas of the human life, where the
artificial intelligence is considered as the latest
developments in this technological revolution, and
modern programming that extended its inclusivity
, effected all fields; education, medicine , trade ,
and lawyer , and its applications are now
simulating and sometimes compete with the
human intelligence .

some scholars are arguing for the usability of this
technique to generate the misinformations that can
destabilize societies , while others tend to say that
these systems and mechanisms can replace the
human beings in many fields ; where the
application of the artificial intelligence swept the
economic institutions, and banks using of the
Chatbots and dialogue with the customers using
applications connected to their smartphones, along
with the web crawlers that monitor the researchers'
selections and desires without the compulsion of
the traditional research.

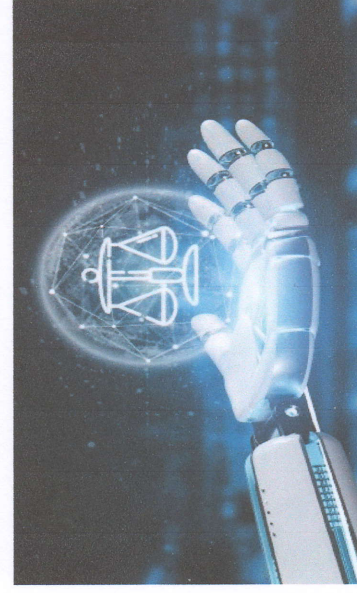

However the AI is distinct from the e- programs in
its ability to work without human control or the
direct intervention that result technical problems
and failures, and viruses ; besides the increasing
use of the artificial intelligence systems could
affect the individual legal status that requires
rising questions on the extent of the adaption of
the current legislation, its capacity to absorb the
individual characteristics of these systems, and the
creation of the the regulatory framework , and its
impact on the traditional public rules , in terms of
their ability to avoid the mistakes, and determine
the liability.

Problematic

How well the current legislation can absorb
the individual characteristics of the artificial
intelligence systems?

Conference objectives

- Determine the concept of the artificial intelligence systems.
- Determine the individual and technical characteristics of the artificial intelligence systems.
- show the impact of the artificial intelligence systems on the general rules of the civil code.
- Identify the legal rules which should control the artificial intelligence systems.
- Regulate the legal problems related to the artificial intelligence applications .
- Support the policies and the legal legislation that present and evaluate the successful experiences in the field of artificial intelligence applications and identify the most important challenges that they face.

Conference topics

Theme 1

Concept of the artificial intelligence techniques

- 1- Definition of the artificial intelligence
- 2- Types of the artificial intelligence systems
- 3- Development of the artificial intelligence systems

Theme 2

Legal rules controlling the artificial intelligence techniques

- 1- Legal nature of the artificial intelligence
- 2- Legal personalization of the artificial intelligence systems
- 3- Liability of the artificial intelligence businesses

Theme 3

The artificial intelligence applications between the current challenges and the future prospects

- 1- studying models of the artificial intelligence use experiences and the constraints of the application.
- 2- evaluate the artificial intelligence uses between the advantages and disadvantages.
- 3- the future prospects to use the artificial intelligence in the legal sciences.

Bodies of the Conference

Honorary conference chairman

Prof. Dr. Nouredine Benali, Rector of the University - Jijel

General Supervisor

Dr. Bouhila Nabil - Dean of Faculty of Law and Political Sciences

Conference Director

Prof. Dr. Moka Abd Elkoum

Conference chairman

Dr. Bechatta Zahia

Scientific committee chairman

Dr. Dnayeab Assia

Organizing committee chairman

Dr. Bouzebra Souhila

Scientific committee:

Scientific committee members

Prof. Dr. Semmar Nassreddine - University of Jijel	Dr. Zbiri Marya - University of Khanchla
Prof. Dr. Khalef Faïeh - University of Jijel	Dr. Larkat Aziza - University of Oum Albouaghi
Prof. Dr. Haddad Laid - University Center of Tipazza	Dr. Grimes Nassima - University of Jijel
Prof. Dr. Khachmoun Malika - University of Jijel	Dr. Madjdoub Kawther- University of Skikda
Prof. Dr. Bouchkioua Abdelhalim - University of Jijel	Dr. Koussam Amina - University of Setif
Dr. Bechatta Zahia - University of Jijel	Dr. Karmi Rima - University of Jijel
Dr. Rewahna Nadia - University of Jijel	Dr. Amieur Ferhat - University of Jijel
Dr. Addid Amina - University Center of Milla	Dr. Azizi Djalel - University of Jijel
Dr. Djarmouli Malika - University of Jijel	Dr. Hssayem Samira - University of Jijel
Dr. Bouzebra Souhila - University of Jijel	Dr. Mezhoud Hanan - University of Jijel
Dr. Hachemi Hacene - University of Jijel	Dr. Bouteraa chamama - University of Constantine
Dr. Boularaoui Sadek - University of Jijel	Dr. Krlifa Samia - University of Media
Dr. Haid Souad - University of Jijel	

Organizing committee members

Dr. Bouach Wafia - Dr. Haid Farida - Dr. chouiab amina
- Dr. Yhia Abdelhay - Dr. Bouleghlimat Soulef - Dr. Bouhila Rabah

Conference conditions

Every submitted presentation must be related to one of our national conference themes.

Adherence to the rules of the scientific research (Editing and Documenting)

The research should be original. Unpublished or not presented at a previous scientific occasion.

the presentation should be in Arabic, French and English.

the abstracts should be edit in :

Arabic language ;using Simplified Arabic font , size 14

Foreign languages : Time New Roman font , size 12 headers) and 12(footnotes) , with margins of 2 cm all around .

the presentations in Arabic should be annexed by an abstract in English. And the presentations in English should be annexed by an abstract in Arabic .

The footnotes inserted automatically in size 12.

the number of pages should not be less than 12 pages and not exceed 20 pages. (Paper size A4) font size 12.

the presentations must be sent on time.

the presentations are subject to the arbitration of the scientific committee and the will reply the acceptable one via E-mail.

the joint presentations are not accepted; except for the PhD students with their supervisors and only with one presentation.(Only one presentation)

Important Dates

Abstract submission deadline: 05/05/2024

Abstract acceptance notification: 10/05/2024

The paper should be sent to the following Email:

droitartificialintelligence@gmail.com
